

Project Development Phase

Model Performance Test

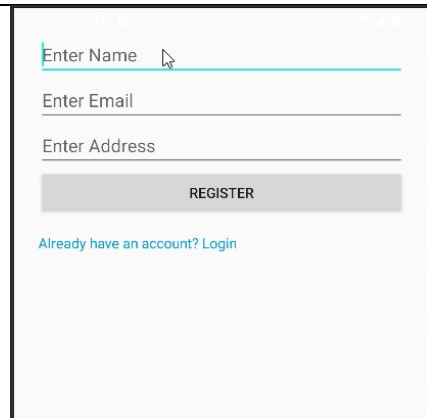

Date 12 May 2025

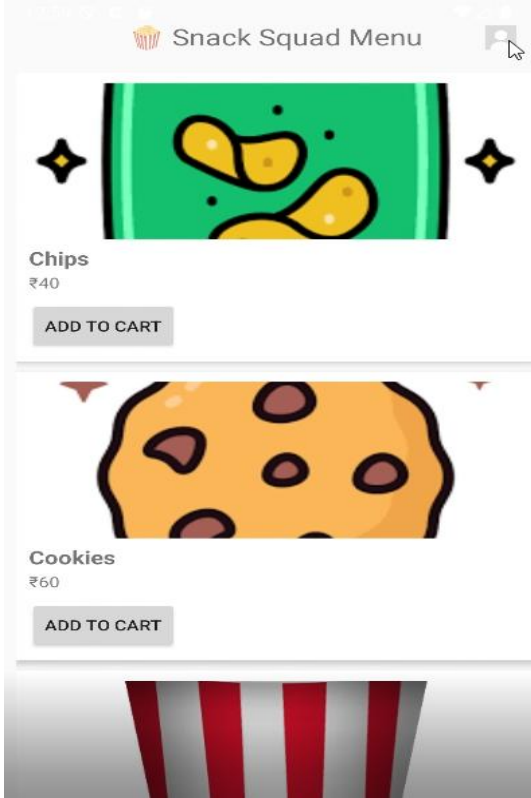

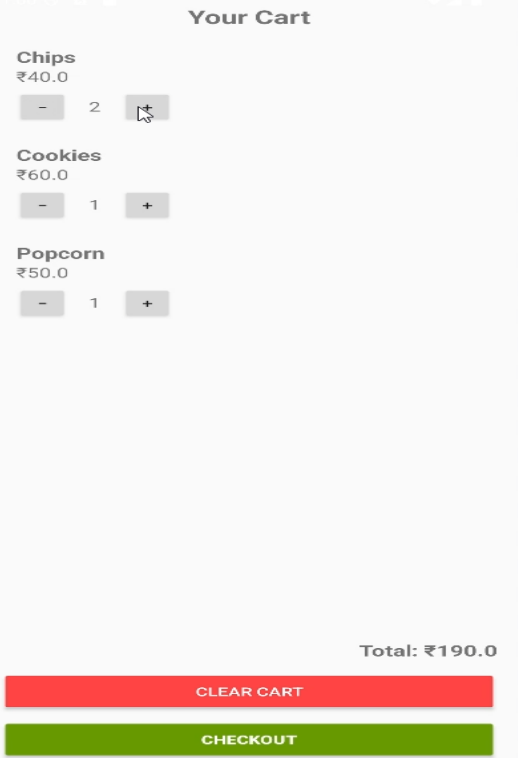

Project Name – Snack Squad

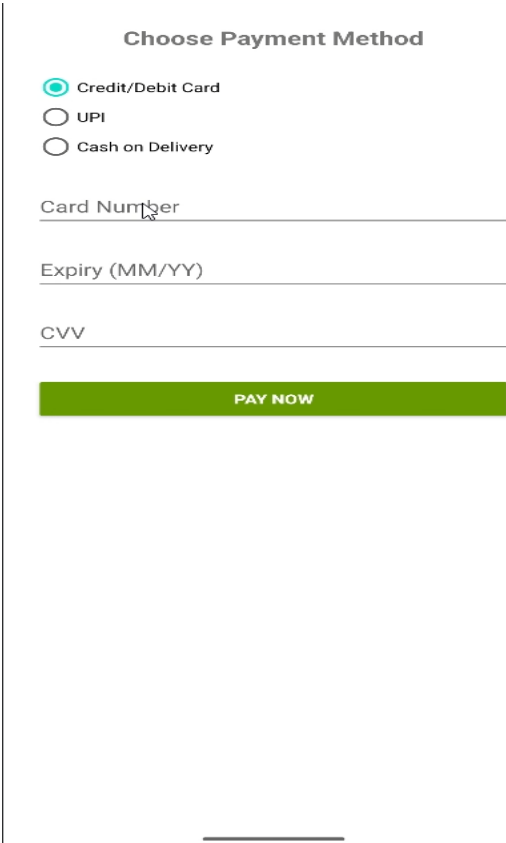

Maximum Marks 10 Marks

Model Performance Testing:

Project team shall fill the following information when working for VAPT testing for a target.

S.No	Parameter	Values	Screenshot
1.	Information Gathering		
	User Registration	User enters name, email, and delivery address. Validations check for format and blank entries.	
	Profile Management	User profile information is used across checkout and order summaries. Editable in profile section.	
2.	Snack Catalog Browsing		

	UI Display Validation	Snack items are listed with names, images, prices, and descriptions. Data loads correctly.	 <p>The screenshot shows a mobile app interface titled "Snack Squad Menu". It features two snack items: "Chips" with a price of ₹40 and an "ADD TO CART" button, and "Cookies" with a price of ₹60 and an "ADD TO CART" button. The background includes a green bag of chips and a large cookie illustration.</p>
	Snack Selection	User can add items to cart with quantity control. Toast message confirms addition.	
3.	Cart and Checkout		
	Cart Logic	Cart calculates total dynamically, reflects quantity updates, and allows removal of items.	 <p>The screenshot shows the "Your Cart" screen. It lists three items: "Chips" (₹40.0) with a quantity of 2, "Cookies" (₹60.0) with a quantity of 1, and "Popcorn" (₹50.0) with a quantity of 1. Each item has minus and plus buttons for quantity adjustment. At the bottom, the total is ₹190.0, with "CLEAR CART" and "CHECKOUT" buttons.</p>

	Validation Handling	Empty cart shows proper message. Quantity cannot go below 1.	
4.	Payment & Order Placement		
	Payment UI Testing	Multiple payment options (Card, UPI, COD) handled using conditional layouts..	
	Input Validation	Invalid card, expiry, or CVV show specific errors using TextInputLayout hints.	

	Success Flow	Simulated payment with delay, success screen shown, cart cleared.	<div><div> Payment Successful!</div><div>Thank you for your order.</div><div>Rate Your Experience:</div><div></div><div><input type="text" value="Write your feedback..."/></div><div>SUBMIT FEEDBACK</div><div>TRACK ORDER</div><div>BACK TO HOME</div><div> Cash on Delivery selected</div></div>
5.	Order Tracking		
	Order Timeline	Displays status: Order Received → Preparing → Out for Delivery → Delivered.	<div><div>Order Placed</div><div><div></div></div><div>Estimated Delivery in 15 mins</div></div>

6.	Feedback and Ratings		
	Feedback Entry	User can submit star ratings and text feedback after order. Data can be stored for future analytics.	<div><div><div>✔ Payment Successful!</div><div>Thank you for your order.</div><div>Rate Your Experience:</div><div><div>★</div><div>★</div><div>★</div><div>★</div><div>★</div></div><div><div>good</div><div></div></div><div>SUBMIT FEEDBACK</div><div><div>≡</div><div>TRACK ORDER</div><div>BACK TO HOME</div></div></div></div>
